Yes, we could but they are mostly in [Ex. 6 Personal Privacy (PP)] I asked them awhile ago and they thought it would be too far for them. We could try again. I don't think we'd get any takers though.

I have been keeping them updated anyway.

Not to open up a can of worms here, but should we be extending some of the local visits to CDC people too, for educational (not sampling) purposes?

Agree. This would be a long, full day but productive

I would just block off the whole day for all of the days. Seems like the [Ex. 6 Personal Privacy (PP)] facility would be interesting and we should keep open the possibilities. Travelling to [] and back in one day, I think everyone would assume it would be a full-day excursion and not plan meetings on either end.

OK, so it seems it is just under 2 hours to get to the [Ex. 6 Personal Privacy (PP)] facility, if we budget an hour and a half in [Ex. 6 Personal Privacy (PP)] and come straight back, It should be around 6 hours total, 8am-2pm (maybe a little longer if we are grabbing lunch on the way back).

If we want to go to [Ex. 6 Personal Privacy (PP)] it should be 2 hours to [Ex. 6 Personal Privacy (PP)] 1.5 hours in [Ex. 6 Personal Privacy (PP)] 30 minutes to [Ex. 6 Personal Privacy (PP)] + 1.5 hours in [Ex. 6 Personal Privacy (PP)] + 2.5 hours back. This should be 8 hours, maybe 9 with lunch and some delays along the way, and that would come to 8am-5pm.

I am starting from and coming back to [Ex. 6 Personal Privacy (PP)] in these calculations.

So, we should go to [Ex. 6 Personal Privacy (PP)] if we are either inviting CPSC and they are coming along or if we are interested in the manufacturing of EPDM. Do we know one or the other? (I am somewhat interested in the manufacturing of EPDM, but can do without, if most people are not - I don't think our task requires us to see it. If people do not want to take this long for the tour at all, we can also just send the information to Eric Hooker and he can organize the tour for CPSC.)

So. let me know what is preferred, I am trying to send out the Doodle poll so people could have this tour in mind before committing their days to other things, and I need to specify the times.

It will definitely be a long day and will run after hours. For me, on a perfect day, it can take over 2.5 hours to drive directly to [Ex. 6 Personal Privacy (PP)] but traffic gets worse each time I go. That said, it looks like a great opportunity.

We should find out, too, how many people can be accommodated.

Hi Ksenija - I'm not clear what kind of input you are asking from us. This facility sounds good, and if Eric is available and time allows, it would make sense to go to the [Ex. 6 Personal Privacy (PP)] space as well. I think it would be helpful if you can determine the full amount of time it will take to drive to all these places based on specific addresses. (This already looks like a full-day trip, perhaps not making it back to [] until after normal business hours). That's a factor as well.

Hi [Ex. 6 Personal Privacy (PP)]

I am setting up the Doodle poll to lock in the date for our tour of your facility, but I did want to check a couple of more things with you. How much time should we budget; do you think that 10:30 – 12:00 is enough? Also, does the same campus facility make playground material? [Ex. 6 Personal Privacy (PP)]

Thank you and all the best,
Ksenija
